## BEGINNINGS

SHE STARTED HER JOB OCTOBER 7, 1946 IN IRE  
FOR HAVING BEEN ASKED, "ANY RELATIONS TO PAT O'BRIEN?"

"I AM PAT O'BRIEN!"

"FUNNY, YOU LOOK DIFFERENT ON THE SCREEN."

BUT RECOGNITION DIDN'T ELUDE PAT FOR LONG. IN 1948,  
SOCIETIES AND GROUPS (THEN THE PROFESSIONAL GROUP SYSTEM)  
WAS FORMED. BUT HOW TO PROCESS ALL THOSE ADDITIONAL,  
OPTIONAL MEMBERSHIPS?! PAT HAD HER FIRST BIG BREAK.  
SHE WORKED UP A LITTLE NUMBER SHE CALLED THE TWO-STEP  
SHUFFLE.

MEMBERSHIP CARDS STACKED 52 CARDS TO A PILE, SAT ON EACH  
WORKER'S DESK. THE WORKER, WITH ONE HAND, FLEXED  
THE CARDS OUTWARD LETTING GO SLOWLY. CARDS FLUTTERED  
HERE, THERE, EVERYWHERE. CARDS LANDING ON THE DESK  
WERE PROCESSED; THE OTHERS PICKED UP AND CIRCULARLY FILED.  
STATING THE OPTIONAL SOCIETY THE MEMBER RECEIVED WAS THE  
SECOND STEP CALLED "EENIE, MEANIE, MINEY, MO". PAT HAD BEGUN HER  
RISE TO THE TOP.

LITTLE KNOWN FACT: THE POPULAR GAME 52-CARD PICK-UP  
ORIGINATED HERE.

YES, YOUNG LADY. I AM GOING TO MAKE YOU THE QUEEN BEE OF EDP!

## RISING TO THE TOP

1962. IRE JOINS AIEE. EXCITEMENT ABOUNDS. SO DOES WORK. PAT COMBINES THE MEMBERSHIPS THROUGH A COLORFUL, DUAL ROLODEX SYSTEM. EVERYONE BEGS FOR TICKETS TO SEE THE DESK-SIZE ROLODEX SYSTEM IN ACTION.
1964. A BIG BREAK. PAT LANDS MAJOR ROLE IN "DATA PROCESSING." WONDER FLOURISHES. HOW WILL THIS MOVE TURN OUT?
1967. PAT SHOWS OFF HER NEW ROLODEX COMPUTER STORAGE SYSTEM'S PERFORMANCE. STRATEGIC STROBE LIGHTING AND PSYCHEDELIC ROCK DRIVE THE MEMBERS WILD. THE AUDIENCES OOH; THE CRITICS RAVE. "LIKE, WOW MAN!" EXCLAIMS ONE MEMBER.
1970. PRACTICE, PRACTICE AND MORE PRACTICE. PAT PRACTICES BEING AT WORK BY 5 A.M. SHE PRACTICES SIDE-STEPPING MEMBERS' COMPLAINTS WITH ELUSIVE GRACE. PAT THINKS PRACTICE MAKES PERFECT. SHE'S RIGHT.
1974. PAT MOVES FROM HER CRAMPED NEW YORK CITY LODGINGS TO A PALATIAL COUNTRY ESTATE IN PISCATAWAY, NEW JERSEY.
1979. THE CROWNING GLORY! PAT LANDS LEAD ROLE IN, FIELD SERVICES, PLAYING STAFF DIRECTOR.

AS MOTHER USE TO SAY, "WE EARNED OUR BREAD TODAY".

## STAR SHINES IN FIELD SERVICES

BRIGHT, WARM, PROFESSIONAL DESCRIBES TALENTED PATRICIA D. LECH'S PERFORMANCE AS STAFF DIRECTOR IN FIELD SERVICES. STRIKING THE RIGHT CHORD IN EACH SCENARIO, SHE INVEIGLES, UNWINDS, CASTS OFF THE CRISES PLACED IN HER PATH. AS STAFF DIRECTOR SHE FACES CHAOS BEING EMOTIVE WITHOUT GUSHING, STRONG YET YIELDING. A TERRIFIC SUPPORTING CAST ENHANCES HER PERFORMANCE BRILLIANTLY. IT'S THE ROLE PATRICIA HAS WAITED FOR, HER CROWNING GLORY. AND SHE HANDLES IT BEAUTIFULLY. A MUST SEE IS PATRICIA D. LECH AS STAFF DIRECTOR IN FIELD SERVICES. \*\*\*\*

COMING NEXT.....TRUE CONFESSIONS ↓

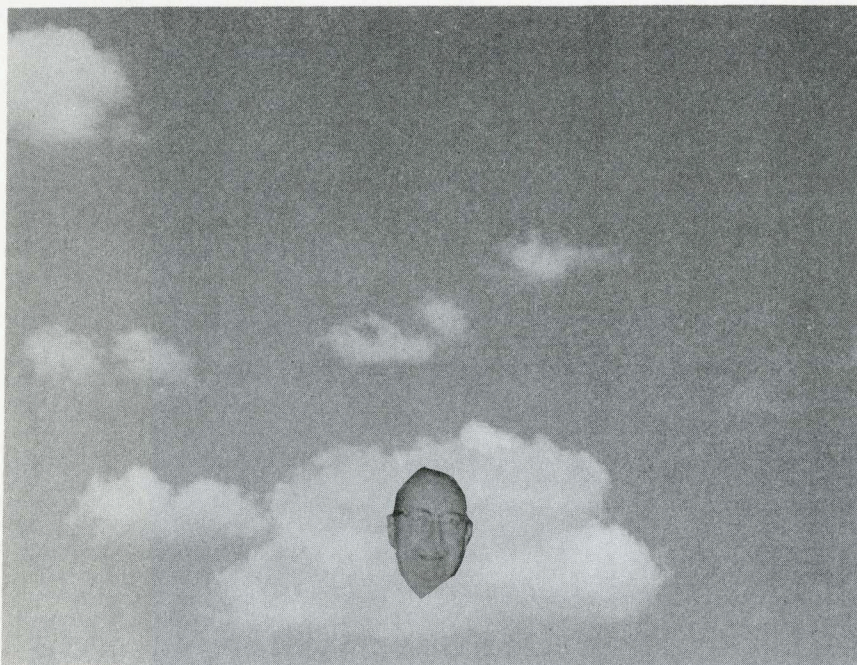

SO READ ON AND FIND OUT:

WHERE FREDERICK G. SUFFIELD, THE LEADING MAN IN  
PAT'S LIFE, SPENDS HIS DAYS.

HOW THESE TRENDSETTERS SELECTED THE DATE.

WHEN PAT KNEW HE MEANT "BUSINESS".

...AND MORE.

## IS THERE A CLOUD 599?

EVERYONE HAS BEEN QUESTIONING WHETHER CLOUD 599 EXISTS. MOST OF THESE INQUIRIES HAVE BEEN COMING IN FROM PEOPLE THAT HAVE BEEN VIEWING THE HOTTEST ROMANCE SINCE GABLE & LOMBARD CALLED THE LECH & SUFFIELD ROMANCE.

PATRICIA D. LECH HAS BEEN WALKING AROUND IN A TIZZY SINCE THIS NEW ROMANCE FIRST BEGAN, AND FREDERICK G. SUFFIELD'S FINGERS SHAKE SO MUCH THESE DAYS THAT HE CAN'T TYPE HIS DIRECTOR'S REPORTS WITHOUT TYPOS.

PAT NEVER GAVE US A REASON FOR HER AILMENT, BUT FRED SAYS, "I TOO AM IN THE CLOUDS!"

Editor's Note: Some of the information has been changed to protect the innocent.

AND YOU SAID IT WAS A BOARD OF DIRECTORS MEETING IN SAN DIEGO!

THEY MET IN PALO ALTO, CA IN AUGUST, 1980. PATRICIA LECH STAFF DIRECTOR AND FREDERICK SUFFIELD, VICE CHAIRMAN OF REGION 6. NOT UNTIL DIRECTOR ORIENTATION IN DECEMBER THAT SAME YEAR, DID THEY MEET ONCE AGAIN. FRED FELT THAT PAT WAS WONDERFUL AND PAT FELT?? REASON FOR PAT'S FEELINGS WAS BECAUSE THIS STIMULATING MAN SMOKED CIGARS. WHEN THIS NEWS

WAS HEARD BY FRED, HE QUICKLY THREW ALL OF HIS CIGARS AWAY AND PROCEEDED TO TRY TO WOO PAT. THEN FRED ASKED PAT TO GO TO DINNER WITH HIM. TO PAT'S SURPRISE HE PICKED THE CHECK UP, PAT THOUGHT, "THIS IS NOT A RUN OF THE MILL MAN, AND HE DID NOT SMOKE ONE CIGAR." HE THEN SENT AT THE NJ OFFICE & PRESENT ARRIVED, ASKED WHO FROM, NO THE FIRST

THAT SOME-AMISS, SO ROSES, PAT FRED WAS AND THINGS AGAIN BELL & THE U.S. A VERY BIG BUT THEN SAN DIEGO DIRECTORS FRED VERY ASKED ONE IF PAT AND ADOPT HER. BEING QUITE BRIGHT KNEW THAT SOMETHING WAS HAPPENING AND KEPT AN EYE OUT. LATER, WHEN

THING WAS AFTER THE KNEW THAT INTERESTED DEVELOPED TELEPHONE MAILS HIT OIL WELL, CAME THE BOARD OF MEETING & CASUALLY ALIAS "L" FRED COULD NOW, "L"

"L" NOTICED THAT FRED NEEDED MENDING IN THE KNEES OF HIS NEW TROUSERS, "L" NEW THAT THEY MUST HAVE BEEN MADE WHEN FRED GOT UP THE NERVE TO PROPOSE. PAT BEING VERY WITTY THIS GRAND BY SAYING, COURSE YOU DIDN'T EXPECT ANY THING BUT MARRIAGE. THIS EVENT OCCURRED ON VALENTINES

REPLIED TO PROPOSAL OF

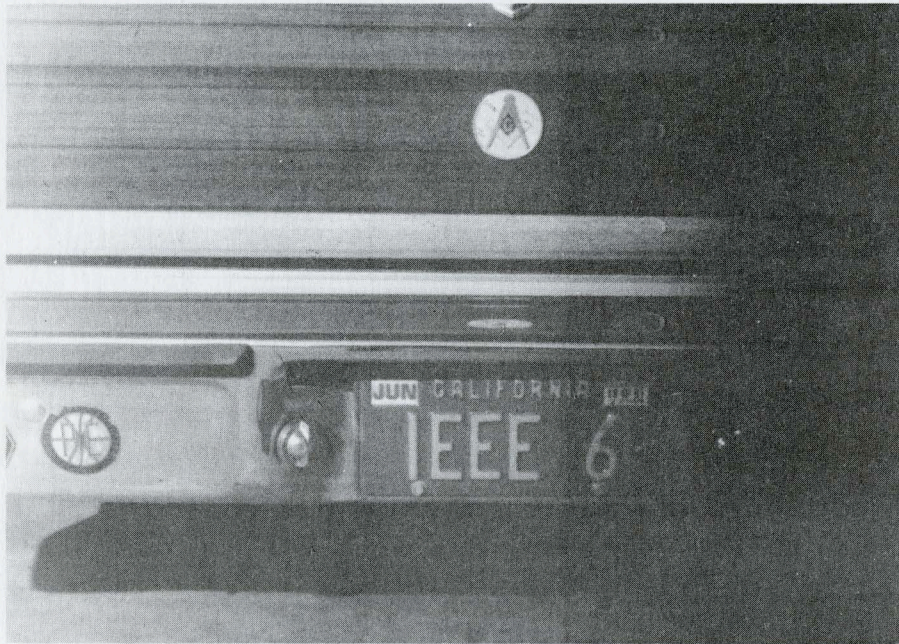

DAY.... NOW, PAT BEING THE ORGANIZED PERSON THAT SHE IS FELT THAT FRED NEEDED TO HAVE THE DATE OF THE WEDDING SET ON A DAY THAT WOULDN'T BE HARD FOR POOR FRED TO FORGET, SO IT IS NOW SCHEDULED FOR THE 4TH OF JULY. IN THE MEAN-TIME, P A T MUST SAY

"GOODBYE" TO ALL OF HER CLOSE FRIENDS AT LEE WHO WILL MISS HER VERY MUCH BUT THEN MARRING FRED IS NOT AT ALL A MISTAKE FOR PAT THIS IS A NEW AND HAPPY GOAL!

THE "H" WAS LEFT OUT FOR PAT AND FRED'S

Pat Lech joined IRE on October 7, 1946. I followed nine months later on July 7, 1947. I had the good fortune to "inherit" Pat when I assumed the duties of IRE Office Manager in 1948.

Pat supervised the IRE Membership Department, and she had her hands full, as evidenced by the fact that in 1946 when she came on board IRE membership totalled 18,000; in 1962 it had leaped to 103,555.

1948 saw the commencement of a new conception created by the IRE Board of Directors called the Professional Group System, which is the Society/Group structure in the IEEE. The processing of these supplementary optional memberships with the membership applications became the additional responsibility of the IRE Membership Department.

In 1961, when plans for the merger of IRE and AIEE were in process, Pat assumed a great deal of the burden in combining the memberships of the two organizations. This was no easy task. Duplicate memberships had to be identified; a new membership numbering system had to be designed and implemented. To my knowledge, we lost no members in this major merging of over 160,000 membership records which Pat supervised with her usual dependable efficiency.

In the fifteen years of her employ with IRE, she had to cope with many other transitions - the installation of computers, departmental expansions, etc. She took all of these shifts in her stride; no challenge was too great for her to tackle and, along the way, she made lasting friendships not only with staff but with volunteers with whom she became associated over the years.

Having set up and organized the Membership Department operations in the IEEE which were functioning smoothly with minimum supervision, she looked for greener pastures and found that her talent could be utilized in the Computer area, to which she was transferred in mid-1964.

Pat has been a tremendous asset to the Institute. Her elevation to Staff Director in late 1979 was well deserved. It has been a joy to me to have known and worked with her for these past thirty-four years. I wish her health and happiness in the years ahead.

Dear Pat:

Well Pat, you seem to be job hopping again-----IRE - Member Services, 17 years, IEEE - Member Services - 2 years, IEEE - Data Processing, 14 years, and IEEE - Field Services - 2 years. Some people just do not have the proper attitude toward their job. Yes, I do admit we liked having you in the department, but I know for a fact that you had about fifteen sick days during just your time with Data Processing. I would hate to check out the time you missed with the other departments. Well, now that I am on the subject and getting rather annoyed, I can remember at least thirty times over those years when I arrived in the office before you did. Somehow you never had any regard for time. Now let's get real serious, Patricia, I can remember you missing at least five schedules by as many as a total of seven days. I just don't know how you can account for that neglect. Oh yes, you always blamed someone for your faults. How many times I had to correct your grammar in a memo or catch your misspellings only to have you say they were typo's. You might be saying to yourself right now that this paragraph is rather long. Wrong again! I can think of quite a few times we ran reports wrong and you found the mistakes before it left the department. Surely you could have prevented the problem sooner. Many of your co-workers have complained because you just did not talk about them. Well, is that right? Over the years we have had problems with space, air conditioning, location, etc. etc. and you just never had anything to say. All you did was continue working. This attitude always caused me a problem. I wanted you to represent Data Processing, but how you failed me the day we were moving the computer from New York to New Jersey and you wore designer jeans!! Well, so what Pat, if I used well again, I am sure people will at least realize why I was pleased with your promotion. Let someone else have my problem.

Now it's time to say so long and for you to move on to what you deserve. We sure hope Fred will understand your faults and we hope and are sure that you will never change. I know I should have said something good about you Pat, so I will say we are going to miss you a heck of a lot and you better keep in touch with all of us.

Love,

Yours Truly and Sincerely,

## FOND MEMORIES

It seems like only yesterday.  
that you and I had met  
We came from different companies  
but no one cared I bet.  
And what really was important  
we set our pasts aside  
And worked together as a team  
and took it all in stride.

There were so many special friends  
that we can ne'er forget  
Who helped to shape the Institute  
to be the best - you bet.  
So here's to Millie, Peg and Rudy  
Warren, Emily, John and Woody  
And here's to Eve, Schloss and Mary  
Helen, Charlotte, Joe and Goody.

These are but some of our many friends  
who kept I triple E alive  
These are but some of our many friends  
whose memories survive.  
So let us always treasure  
these moments from the past  
And if we now remember  
These days will last and last.

Yes, Pat it does seem like only yesterday that you and I met in the confines of the Brokaw Mansion. Those first few years were filled with so many events and changes in ways that had become familiar to each of us. The beauty of the Brokaw Mansion with its setting next to Central Park, created an unusual work environment! It was in those buildings I had the opportunity to work with and get to know so many new friends.

I remember how you maintained all the membership cards in those large rolodex files and how we tried to coordinate the addressograph files with the Burroughs MICR coding. Fortunately the need for a single coordinated system was recognized and that's when you were tagged to coordinate all the membership records into the new G.E. system. I remember the conversion so well and all the "special people" Ed Heeney had working for him. Where, oh where, would IEEE be without the efforts of such people in those early years. I think we all felt as though we owned the company and we were going to make it work regardless of the personal sacrifice.

When we moved to 47th Street, everyone felt very nostalgic as though they were leaving "home". In a way, it was like home. The special Christmas parties with Woody at piano and Rudy on his guitar, the favorite eating place at the Hyde Park and the close family relationships made "79th Street" a very special place.

The move to Piscataway created in some ways an atmosphere similar to 79th Street. Not that the building or the area looked the same, but the desire to overcome a new problem created a kinship between everyone. Certainly Bill Keyes must have been proud of the way so many people put forth such extra effort to make Piscataway work. All of the temporary move problems, the new conversion to IBM, the reassignment of people to new responsibilities - all of these brought us all closer together.

Currently, there are indications we will again be going through major internal changes. These changes will help IEEE to grow and will, I am sure, bring the staff closer together in solving our problems.

You soon will be embarking on a new career - one that I know will be filled with happiness and new memories. I hope you will find time to think of us now and then as we will think of you. Good friends are never forgotten - their memories remain with us always.
