Mr. H.H. Henline, National Secretary, American Institute of Electrical Engineers, 33 West 39th Street, New York, N.Y.

Dear Mr. Henline:

The Regional Committee and Chicago Section much appreciated the telegram you send me regarding the lamented death of Mr. Schuchardt.

AND THE REAL PROPERTY.

I have had occasion to take this matter up directly with Mr. Ferguson and have, further, written to Past President Arnold and Chairman Mapes in the following terms:

"It is a matter of great grief to all of us, the passing of our colleague and Past President, Mr. R.F. Schuchardt.

The headquarters of the A.I.E.E. sent me a telegram, a copy of which is enclosed. The family of Mr. Schuchardt have been consulted in this matter and have expressed a wish that the funeral be strictly private and that no flowers be sent. The body was cremated in Boston and the services over the ashes will, we believe, be held on Monday.

We trust from the foregoing explanation that everything has been done on our part which is possible under the circumstances, and understand that the family appreciates our desires which, however, do not conform to their own wishes."

I have no doubt that headquarters would fully desire to also cooperate with the family's wishes.

Yours very truly,

Vice-President.

Thank you for your letter of November 1st as to the death of Mr. Schuchardt.

To complete your records and in case there is any further publicity regarding this, I wish to say that the family relaxed their wish so definitely expressed that the funeral should be entirely private so that there attended over two hundred at the funeral which took place at the First Unitarian Church of Chicago on October 31st.

Yours very truly,

Vice-President

DR. FRANK B. JEWETT, Vice President, American Telephone and Telegraph Company, 195 Broadway, New York, N.Y.

My dear Dr. Jewett:

I was greatly surprised to learn through the January issue of the Electrical Engineering the death of Mr.R.F.Schuchardt who had been one of the best friends of mine in the United States. I wish to ask you to convey my sincere sympathy to his family as I do not know how to reach them directly.

His death means, I believe, a great loss to the electrical engineering circle of your country, for he was not only one of the foremost engineers, but also participating actively in the work of the A.I.E.E.

My memory of Mr. Schuchardt is still fresh in my mind and of very impressive one; particularly since the time of his visit to Japan in 1929, I was very proud of having such an excellent American friend as he. I regret very much to have lost him, because a great deal of promotion of good-will toward better understanding between the United States and Japan had been expected through his kind effort.

Trusting you would be so good as to take trouble in conveying my deep condolence to his survivers as well as to the officers of the A.I.E.E., I remain, dear Dr. Jewett

Yours very sincerely, (Sgd.) M. SHIBUSAWA

My dear Dr. Shibusawa:

I have just received your letter of March 1st regarding the untimely death of Mr. Schuchardt, and I am hastening to carry out your wishes. While I do not know much about Mr. Schuchardt's family, I am sending a copy of your letter to Mr. H. B. Gear, whom you may remember as being in the party that went to Japan. Mr. Gear was Mr. Schuchardt's closest personal friend as well as a close professional associate, and he will I know be most happy to transmit your message of condolence in proper fashion.

I am also sending a copy of your letter to Mr. H. P. Charlesworth, President of the American Institute of Electrical Engineers, for his information and the information of the officers and Board of Directors of the Λ .I.E.E.

Mr. Schuchardt had a high place among electrical engineers in America due both to his professional attainments and particularly to his wonderfully sweet disposition. All of us who ever came to know him well found in him a permanent friend whose friendship added much to the pleasure of life.

Trusting that you are very well and with kindest of personal regards to my many friends in Tokyo and elsewhere in Japan, I am, as ever

Sincerely yours,

My dear Gear:

Enclosed herewith is copy of a letter just received from Dr. Shibusawa a copy of my reply thereto. Will you be good enough to carry out Dr. Shibusawa's request in whatever way you think best?

While Dr. Shibusawa writes as President of the Japanese Electrotechnical Committee, you will remember that he is Dean of the Engineering School at the Imperial University of Tokyo, and is the man whom the A.I.E.E. honored with an honorary membership. He is also the man who made possible to us those delightful visits to his uncle, the late Viscount Shibusawa.

With kind personal regards,

Yours sincerely,
