

DEC -8 1906

December 8th, 1906.

Mr. George Westinghouse,  
Pittsburgh, Pennsylvania.

Dear Mr. Westinghouse:-

We have been informed by Chairman Martin of your very liberal subscription of \$50,000. to the Land and Building funds of the Mining, Mechanical, and Electrical engineers' associations.

On the part of the American Institute of Electrical Engineers we wish to assure you of our hearty appreciation of this gift on behalf of the several Westinghouse Companies. This contribution makes possible the early cancellation of the indebtedness which we were compelled to assume in order that the Institute might avail itself of Mr. Carnegie's offer of a building of a suitable character for a future home.

Yours truly,

President.

Secretary.

My dear Sir:-

Some months ago we had the pleasure of acknowledging your subscription of \$50,000. to the building fund of the three national associations of electrical, mechanical, and mining engineers, in behalf of the Westinghouse companies.

The receipt of the cheque for the entire amount, affords another opportunity of expressing our hearty thanks for this most liberal gift, which is appreciated all the more coming as it does as a tribute from one who knows what engineering means to progress and civilization.

With best wishes for your continued health and prosperity, we have the honor to remain,

Yours sincerely,

Secretary.

President.

Re Subscription \$50,000.
