PHILADELPHIA, PA. Nov. 27/25

Dear Mr. Metcalfe

Did I leave an Eversharp pencil in your office on Wednesday? I suppose you know that it is a metal pencil with renewable lead.

This one has red lead in it & has a red band around it. I do not think it has my name on it. I missed it that same evening.

Should you find it will you kindly mail it to me.

Yours truly
Carl Hering

I believe I used it when I read that proof.

Philadelphia, Pa.

My dear Dr. Hering:

No Eversharp pencil with red lead has been found in this office since you were here on Wednesday. However, if one does come to light, we shall be most happy to mail it to you.

With a hope that you may have found your pencil by now.

Very sincerely yours
