Gentlemen

I have this day forwarded to Sir. William Thomson's present address, Athenaeum Club, London, the documents of which you advised me in yours of the 1<sup>st</sup> instant.

Sir William is at present cruising in the channel near London waiting the arrival from Brazil of the cable ship "Hooper" which is expected every day so I think the papers must be in his hands in two or three days at latest.

Yours Respectfully

D. M'Farlane.
