Wakefield, MA 01880
Attention Gilmore G Cooke

Dear Gil,

MIT Lincoln Laboratory is honored to have been nominated for an IEEE Milestone Award for its development of the Semi Automatic Ground Environment (SAGE) System from 1951 to 1958. I understand the requirement that the IEEE Milestone Plaque must be display at Lincoln Laboratory in a space accessible to the general public. If selected, Lincoln Laboratory will display the plaque as required.

John Kuconis, the Executive Officer to the Director, will be Lincoln Laboratory's point of contact.

Please convey my thanks to the IEEE Boston Section, History Committee for the nomination

Sincerely,

A handwritten signature in black ink, appearing to read 'Eric'.

Eric D. Evans
Director
