

Middlebury, Vermont

July 16 1911

Mr. Edward D. Adams

71 Broadway

New York City

My dear Mr. Adams:

Your letter of July 13

has just reached me at above  
address and I am much  
pleased to learn of the valuable  
gift which you have presented  
to the Institute library. I was  
at one time in close personal  
touch with Prof. Friederich  
Kohlrausch as a student and  
later as his assistant and just  
prior to his assumption of  
the Presidency of the Reichs-  
Anstalt. Some several publications

which he sent me I learned  
to appreciate the great value  
of the published records of  
that institution. I am  
therefore confident that your gift  
will be of great value  
to those who use our library  
and will be appreciated <sup>much</sup> by  
them -

I note the courtesy of  
Dr. Rowland and the kind  
influence of Mr. Arnold von  
Siemens.

Insd.  
D. C.

add a sentence about  
the bust of Helmholtz

Thanking you in behalf of the Institute  
I am Very truly yours

Samuel Sturges  
Chairman Library Committee

The information regarding  
the Helmholtz bust  
is very interesting, and  
is heartily appreciated.  
The bust has been  
placed in the Board  
Room of the Engineers'  
Building etc

July 17 1911

Dear Pope:

I have received enclosed letter from Mr. Adams  
and am enclosing a reply which I wish you would  
have typewritten signed and sent to him - I  
would like to add an appropriate sentence about  
the bust but am ignorant of what the status  
of the matter - Has the Board officially accepted it?  
or are they going to unveil it or do anything else?  
Please add an appropriate sentence - also send  
Adams letter to Cutter for his information -  
I am going up to Quebec tomorrow afternoon

with my family to spend the rest of the week -  
The magneto from my car is in N.Y. undergoing  
repairs —

No other news

acrevoyrs.

Samuel Phelps
