

An Appreciation :

RADIO history is being written in broadcasting Opera. It is only right that acknowledgment should be made to the Chicago Opera Association, Mary Garden, General Director, and the Commonwealth Edison Company, for making such a Program a reality.

Radio Station

KYW

RADIO BROADCASTING STATION KYW, located on the Commonwealth Edison Building, Chicago, is a further step in the Radio Broadcasting Program being carried out by the Westinghouse Electric and Manufacturing Company. Its equipment and design is similar to that of the other powerful stations of the Westinghouse Company; Station KDKA at East Pittsburgh, Pa., WBZ at Springfield, Mass., and WJZ at Newark, N. J., each sending on a wave length of 360 Meters.

Station KYW sent out its first program the same evening as the opening of the 1921-22 Season of the Chicago Opera Association and it is quite fitting, and fortunate, that Opera should make up this Program.
