

College Hill Mass. Jan 10th. 1880

Mr. F. L. Pope

Dear Sir:

When I was last in New York you may remember saying you would gather up my models that were not used and send them to me. Mr. Hamilton & Mr. Prescott had each one also. I wish that they might be returned to me.

You may remember also that Dr. S. S. White promised me \$500.00 for that Rotaphone and I gave one to Mr. Bailey for European use. I have never heard a word from it. The other day I read that the Dr. died in Paris. Saw the

only one I know of who knows
anything about the transaction
between the Dr & myself is
yourself and I wish that
you would if possible help
me to get the money. I could
have got more for it in
Boston but I promised it to
Dr. White at first and shant get
a cent unless I can get that
\$500. he promised.

Yours truly

A. E. Dallas

P.S. There is a "Continental
Bell Telephone Co." being organ-
ized for speculation in Boston.
Stock soon to be on market.

It's expected that it will swell
like the Bell Tel. Stock.

Mr. Garden G. Hubbard is
the projector & manager!!
