College Hill Mass, Jan. 7th, 1878

M. Geo. Walker

Vice Pres. E. S. Co.

Dear Sir

Enclosed find the receipts.

I am obliged to you for informing me of the patent issue. I think that you did not quite interpret me aright my former letter. As you had had my choice over two weeks and I had not even heard whether you had received it or not, I was anxious to know if you had it and also whether you considered it of any account. I am sure that any thing you think worth it will be patented by you, but so long as I am spending your money in experimenting so long I shall be anxious to know that you are satisfied with my work. I have

another matter of a good deal of
importance perhaps about which I
wish to see you personally and I
shall try to visit N. Y. soon for that
purpose.

Yours truly
A. C. Dolbear
