

College Hill Mass, Jan 29th.

Mr. F. Popar

Dear Sir

I have not yet received the copy of the patent of Prof. Bell that you wished me to see. But if I should see it I don't know as I should be able to judge what rulings might be made about it. Your opinion would be worth my much more.

I have got the Saunders as that they talk very well and shall send them on in a day or two.

The remainder of the letter is of an altogether private nature and I wish you would be good enough to tell me

just what you think will be
proper. The speaking
telephone has not been pa-
tented in all countries and I
have an impression that a
patent might be valuable in
some other places for instance
in Japan, China, Brazil etc,
Now what I think was
that maybe you might care
enough about the matter to
do the proper manipulative
work to secure such patent
and make it profitable for
an even share in the profits.
If so I should be glad to
make such arrangements with
you. My relations with
the Gold & Stock Co. were
only made for this country
and while I hope that I

may derive some profit from
it, I am fearful that the great
interests involved will somehow
draw all my interests.

Perhaps not, but can't some-
thing be done in foreign parts?

Please to tell me whether
you think it worth the while
or not. I haven't the
slightest business capacity
and only get what turns up
that's my luck in the past.

Yours truly
A.C. Doebner
